RE: Lake Okeechobee System Operating Manual (LOSOM)

This letter is to inform you of FDACS consultants that we would like to add as participants for the Lake Okeechobee System Operating Manual (LOSOM) Project Delivery Team (PDT) and some LOSOM Subteams.

I will participate as the Florida Department of Agriculture and Consumer Services' (FDACS) primary PDT member. In addition, we have the firm of MacVicar Consulting under contract to provide technical consulting services and hydrological expertise. Tom MacVicar and Bill Baker will participate to provide detailed technical support and expertise for FDACS project review and assist in the evaluation of the various project plans that will be proposed during this effort.

Please do not hesitate to contact me if you would like additional information or discussion. I can be reached at 561-682-6040 or 850-688-5767.

Sincerely,

Rebecca Elliott  
Environmental Manager  
Office of Agricultural Water Policy
